Get Involve in Fedora Community

Liang Suilong (@liangsuilong)

What is Fedora?

- 1. Community Driven Project**
- 2. Sponsored By Red Hat**
- 3. Contributors from everywhere**

How To Join In Fedora Community

First Step:

**Download and install
Fedora into your hard disk**

<http://fedoraproject.org/en/get-fedora>

And Then:

A. Sign up a **FAS account.**

B. Sign a FPCA

C. Upload your SSH and PGP key

If you have a problem, you can ask the question on:

- A. Mailing List
- B. Forum
- C. IRC (#fedora-zh)

Before Asking a question, please read *How To Ask Questions The Smart Way* written by Eric Raymond

Meeting A Bug, don't worry:

1. File A Bug on **Red Hat Bugzilla**
2. Offer more details to developers
3. Test a new version

Bug Report Guideline:

https://fedoraproject.org/wiki/How_to_file_a_bug_report/

QA & Proven Tester:

A. Fedora Test Day

1. Test new feature

2. Test major upgrade of core packages

B. Test the stability of critical path package

Ensure stability of core packages in updates
test repository

Packaging: You need these skills

1. rpmbuild

2. Bash Shell Script

3. Git (CVS for RPM Fusion)

4. Koji and Mock (Plague for RPM Fusion)

Beside them, you need to read

[New Packager Guideline](#)

As a new packager, you need a sponsor.

Packager in Canton:

Liang Suilong, Robin Lee

Coding:

If you are good at coding ,
you can write the code for Open Source
world.

Code for Fedora Project

you should focus on Infrastructure, for example:
Koji, FAS, Mock, Website, FSoC and so on.

Code for Open Source Project

you should keep in touch with packager, and you
can

join in these project:

GNOME, KDE, GCC, and so on.

If you do not know how to code:

Translation: Understand i18n and l10n

What should be translated?

Docs, Software, Wiki, Website

Tools: Transifex, Qt Linguist, poedit

Fedora Chinese Translation Team:

Tian Shixiong (@tiansworld)

Tommy He (@lovenemesis)

If you want to do any others:

Promoting and Marketing:

A. Join in Linux User Group
